You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

► TYPE

This product is a certificate, a transferable debt instrument. It has a full capital protection against market risk at maturity.

► TERM

This product has a fixed term and will redeem on the Redemption Date unless redeemed early in accordance with the Automatic Early Redemption provisions below.

► OBJECTIVES

The objective of this product is to pay coupons based on the performance of an interest rate (the Underlying) in accordance with the coupon provisions below.

Unless the product has been redeemed early, the following provisions would apply.

On the Redemption Date you will receive in respect of each certificate, in addition to any final payment of a coupon:

a payment in cash equal to 100% of the Notional Amount.

Coupon: If on a Observation Date the Digital Floating Rate fixes below or equal the Upper Barrier, a coupon is due for payment at the relevant Conditional Coupon Rate on the corresponding Payment Date.

Automatic Early Redemption: If, on any Autocall Valuation Date, the closing price is lower than or equal to the relevant Autocall Barrier, the product will be redeemed on the corresponding Early Redemption Date. You will receive for each certificate a payment in cash equal to the Notional Amount plus an Exit Rate depending on the Autocall Valuation Date.

PRODUCT DATA

| | |
|-----------------------------------|---|
| Issue Price | 100% |
| Product Currency | EUR |
| Notional Amount (per certificate) | EUR 1,000 |
| Autocall Valuation Date(s) | 19 March 2026, 18 March 2027, 17 March 2028 and 19 March 2029 |
| Autocall Barrier(s) | 1.9% |

| | |
|----------------------------|---|
| Issue Date | 21 March 2025 |
| Redemption Date (maturity) | 21 March 2030 |
| Early Redemption Date(s) | 23 March 2026, 22 March 2027, 21 March 2028 and 21 March 2029 |
| Exit Rate(s) | 0% of the Notional Amount |

| Digital Floating Rate | Upper Barrier | Conditional Coupon Rate(s) | Observation Date(s) | Payment Date(s)* |
|-----------------------|---------------|--|---------------------|------------------|
| EUR CMS 10Y | 2.30% | 4% per annum (NONE) of the Notional Amount | 19 March 2026 | 23 March 2026 |

| EUR CMS 10Y | 2.30% | 4% per annum (NONE) of the Notional Amount | 17 March 2028 | 21 March 2028 |
| EUR CMS 10Y | 2.30% | 4% per annum (NONE) of the Notional Amount | 19 March 2029 | 21 March 2029 |
| EUR CMS 10Y | 2.30% | 4% per annum (NONE) of the Notional Amount | 19 March 2030 | 21 March 2030 |

*Payment Dates are Conditional Coupon Payment Dates.

The product terms provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the Issuer of the product may terminate the product early. These events are specified in the product terms and principally relate to the Underlying(s), the product and the Issuer of the product. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

All redemptions described in this document (including potential gains) are calculated on the basis of the Notional Amount, excluding costs, social contributions and taxation applicable to this type of investment.

► INTENDED RETAIL INVESTOR

This product has been designed for retail investors who:

- have a long term investment horizon (over five years).
- seek to invest in a capital growth product, potentially to diversify their portfolio.
- seek protection of the Notional Amount at maturity and are aware of the possible early termination of the product.

- have been informed or have sufficient knowledge of the financial markets, their functioning and their risks, and the asset class of the underlying.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

► RISK INDICATOR

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class.

This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

You will receive payments in the product's currency, which may be different from your domestic currency. In this case, **be aware of currency risk**. The final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100% of your capital (capital means Notional Amount). Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash-in before maturity.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks please refer to the risk sections of the legal documentation as specified in the section 'Other relevant information' below.

► PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

| Recommended Holding Period | Until the product is called or matures. This may be different in each scenario and is indicated in the table. | | |
|--|---|--------------------------|---------------------------------|
| Example Investment | EUR 10,000 | | |
| Scenarios | | If you exit after 1 year | If you exit at call or maturity |
| Minimum | EUR 10,000. The return is only guaranteed if you hold the product to maturity. | | |
| Stress scenario (product ends after 21 March 2030) | What you might get back after costs | EUR 8,613 | EUR 10,000 |
| | Average return each year | -13.87% | 0.0% |
| Unfavourable scenario (product ends after 21 March 2030) | What you might get back after costs | EUR 8,483 | EUR 10,000 |
| | Average return each year | -15.17% | 0.0% |
| Moderate scenario (product ends after 19 March 2026) | What you might get back after costs | | EUR 10,400 |
| | Average return | | 4.02% |
| Favourable scenario (product ends after 18 March 2027) | What you might get back after costs | EUR 10,253 | EUR 10,800 |
| | Average return each year | 2.53% | 3.94% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The favourable, moderate and unfavourable scenarios represent possible outcomes, which have been calculated based on simulations using the reference assets' past performance over up to 5 past years. In case of early repayment, it was assumed that no reinvestment took place.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

WHAT HAPPENS IF BNP PARIBAS S.A. IS UNABLE TO PAY OUT?

Should the Issuer default or file for bankruptcy, you have the right to seek payment from the Guarantor pursuant to an unconditional and irrevocable guarantee of any amount due. Should the Guarantor also default, file for bankruptcy or in case of bail-in, you may suffer a loss up to the total amount invested.

The product is not covered by any statutory investor compensation or guarantee scheme.

Investors should note that BNP Paribas, acting as Guarantor, is licensed as a credit institution in France and as such is subject to the resolution regime introduced by the EU Bank Recovery and Resolution Directive of 15 May 2014. This regulation, among others, gives resolution authorities the power to amend the key terms of the guarantee, to reduce the amounts payable by the Guarantor under the terms of the guarantee (including a possible reduction to zero) and to convert the amounts due under the guarantee into shares or other securities or other obligations of the Guarantor. Restructuring may be imposed by resolution authorities to avoid bankruptcy. Investors may not be able to recover all or even part of the amount due under the product (if any) from the Guarantor under the guarantee or may receive a different security issued by the Guarantor in place of the amount (if any) due to the Investors under the product by the Issuer, which may be worth significantly less than the amount due to investors under the product at maturity.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

► COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- EUR 10,000 is invested

- A performance of the product that is consistent with each holding period shown.

| Investment EUR 10,000 | | |
|-----------------------------------|---|---------------------------------|
| Scenarios | If the product is called at the first possible date 19 March 2026 | If the product reaches maturity |
| Total costs | EUR 672 | EUR 672 |
| Annual cost impact ^(*) | 6.72% | 1.38% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 5.4% before costs and 4.02% after costs.

For the first call date being less than one year the result is not annualized.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

► COMPOSITION OF COSTS

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|--|--------------------------|
| Entry costs | 6.72% of the amount you pay in when entering this investment. These costs are already included in the price you pay. | EUR 672 |
| Exit costs | 0.5%. These costs only apply if you exit your investment prior to the maturity or early call of the product. The number indicated assumes that normal market conditions applies. | EUR 50 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0% of the notional of your investment per year. | EUR 0 |
| Transaction costs | 0% | EUR 0 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | EUR 0 |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: until 21 March 2030, which corresponds to the product's maturity.

However the duration of the product is not known in advance as it may be redeemed early.

The objective of the product is to provide you with the redemption profile described under "What is this product?" above. This only applies if the product is held until maturity.

Under normal market conditions, you may sell this product in the secondary market, at a price depending on the markets parameters prevailing at the time, which could put the invested amount at risk. Should you decide to resell, a fee of 0.50% will be deducted from the market price which could be increased under specific market condition.

The 0.50% commission has been taken into account in the table. In addition, the distributor may charge additional costs in the event of an exit before the maturity.

HOW CAN I COMPLAIN?

Any complaint regarding the conduct of the person advising on or selling the product can be submitted directly to that person.

Any complaint regarding the product can be submitted by writing to the following address: BNP Paribas CLM Regulations - Client Engagement and Protection Regulations - Torre Ocidente Rua Galileu Galilei, 2, 13º, 1500-392, Lisboa, PORTUGAL, by sending an e-mail to cib.priips.complaints@bnpparibas.com, or by using the online form available at the following website <https://kid.bnpparibas.com/cib/claim>.

OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

For a further information on the product, including the risks involved, you should read the related legal documentation (prospectus / base prospectus and any supplement, and final terms), which is available free of charge from your financial advisor.

This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933 (Securities Act). The offering of this product has not been registered under the Securities Act.
