KID Production Date	15 May 2025 9:13:56 AM CET

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

► TYPE

This product is a transferable debt instrument. It has a full capital protection against market risk at maturity.

► TERM

This product has a fixed term and will redeem on the Redemption Date.

► OBJECTIVES

The objective of this product is to provide you with a return based on the performance of an underlying index.

On the Redemption Date you will receive in respect of each certificate:

1. If a Barrier Event has not occurred: a payment in cash equal to the Notional Amount increased by the Performance of the Underlying.
2. If a Barrier Event has occurred: a payment in cash equal to 107.50% of the Notional Amount.

Where:

- A Barrier Event shall be deemed to occur if the Final Reference Price is below or equal to the Lower Barrier or above or equal to the Upper Barrier on the Redemption Valuation Date.
- The Performance of an Underlying is the difference between its Final Reference Price and its Initial Reference Price, divided by its Initial Reference Price, expressed in absolute value.
- The Initial Reference Price is the closing price of the Underlying on the Strike Date.
- The Final Reference Price is the closing price of the Underlying on the Redemption Valuation Date.

PRODUCT DATA

Strike Date	09 July 2025	Issue Price	100%
Issue Date	16 July 2025	Product Currency	EUR
Redemption Valuation Date	09 July 2030	Notional Amount (per certificate)	EUR 1,000
Redemption Date (maturity)	16 July 2030		
Lower Barrier	70% of the Initial Reference Price	Upper Barrier	130% of the Initial Reference Price
Underlying	S&P 500® Index	Bloomberg Code	SPX

The product terms provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the Issuer of the product may terminate the product early. These events are specified in the product terms and principally relate to the Underlying(s), the product and the Issuer of the product. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

All redemptions described in this document (including potential gains) are calculated on the basis of the Notional Amount, excluding costs, social contributions and taxation applicable to this type of investment.

► INTENDED RETAIL INVESTOR

This product has been designed for retail investors who:

- have a medium term investment horizon (three to five years).
- seek to invest in a capital growth product, potentially to diversify their portfolio.
- seek protection of the Notional Amount at maturity.
- have been informed or have sufficient knowledge of the financial markets, their functioning and their risks, and the asset class of the underlying.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

► RISK INDICATOR

The risk indicator assumes you keep the product until 16 July 2030. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

You will receive payments in the product's currency, which may be different from your domestic currency. In this case, **be aware of currency risk**. The final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100% of your capital (capital means Notional Amount). Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash-in before maturity.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks please refer to the risk sections of the legal documentation as specified in the section 'Other relevant information' below.

► PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended Holding Period		16 July 2030	
Example Investment		EUR 10,000	
Scenarios		If you exit after 1 year	If you exit at maturity
Minimum	EUR 10,000. The return is only guaranteed if you hold the product to maturity.		
Stress scenario	What you might get back after costs	EUR 9,321	EUR 10,383
	Average return each year	-6.79%	0.75%
Unfavourable scenario	What you might get back after costs	EUR 9,539	EUR 10,489
	Average return each year	-4.61%	0.96%
Moderate scenario	What you might get back after costs	EUR 9,578	EUR 10,750
	Average return each year	-4.22%	1.46%
Favourable scenario	What you might get back after costs	EUR 9,625	EUR 10,750
	Average return each year	-3.75%	1.46%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The favourable, moderate and unfavourable scenarios represent possible outcomes, which have been calculated based on simulations using the reference asset's past performance over up to 5 past years.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

WHAT HAPPENS IF BNP PARIBAS S.A. IS UNABLE TO PAY OUT?

Payments in respect of the securities are not the responsibility of BNP Paribas S.A. but of the National Bank of Canada as the issuer of the product. You are exposed to the risk that the National Bank of Canada may not be able to meet its obligations regarding the product, for example, in the event of insolvency or an administrative resolution measure. This can have an adverse impact on the value of the product and could result in a loss of all or part of your investment in the product.

The product is not covered by any statutory investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

► COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested.

Investment EUR 10,000		
Scenarios	If you exit after 1 year	If you exit at maturity
Total costs	EUR 588	EUR 538
Annual cost impact ^(*)	6.21%	1.13%

^(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.59% before costs and 1.46% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

► COMPOSITION OF COSTS

BNP PARIBAS

The bank for a changing world

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.38% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	EUR 538
Exit costs	0.5%. These costs only apply if you exit your investment prior to the maturity of the product. The number indicated assumes that normal market conditions applies.	EUR 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0% of the notional of your investment per year.	EUR 0
Transaction costs	0%	EUR 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: until 16 July 2030, which corresponds to the product's maturity.

The objective of the product is to provide you with the redemption profile described under "What is this product?" above. This only applies if the product is held until maturity.

Under normal market conditions, you may sell this product in the secondary market, at a price depending on the markets parameters prevailing at the time, which could put the invested amount at risk. Should you decide to resell, a fee of 0.50% will be deducted from the market price which could be increased under specific market condition.

The 0.50% commission has been taken into account in the table. In addition, the distributor may charge additional costs in the event of an exit before the maturity.

HOW CAN I COMPLAIN?

Any complaint regarding the conduct of the person advising on or selling the product can be submitted directly to that person.

Any complaint regarding the product can be submitted by writing to the following address: BNP Paribas CLM Regulations - Client Engagement and Protection Regulations - Torre Ocidente Rua Galileu Galilei, 2, 13º, 1500-392, Lisboa, PORTUGAL, by sending an e-mail to cib.priips.complaints@bnpparibas.com, or by using the online form available at the following website <https://kid.bnpparibas.com/cib/claim>.
