### 4. Warnings

**Warning: The value of your investment may go down as well as up.**

**Warning: Deductions for costs and charges are not made uniformly throughout the life of the product, but are loaded disproportionately onto the early period. If an investor sells the Bond prior to the end of the 5 year term, the practice of front-end loading will impact on the amount of money that the investor receives. The investor may not get back the full amount they invested or the Capital Protected amount if sold prior to maturity.**
