POTENTIAL RETURN ILLUSTRATION:

The Table below describes the potential investment return to investors in sample negative, neutral and position investment return conditions:

	Index Return at Maturity	Participation	Total Product Return
Negative Return Scenario	-40%	100%	-40%
Neutral Return Scenario	+10%	125%	+12.5%
Positive Return Scenario	+20%	125%	+25%

INVESTMENT RATIONALE:

The Potential Investment Return is skewed to the upside:

- 125% Participation in any gain in the Index at Maturity
- 100% Participation in any loss in the Index at Maturity

Equities as a long term investment: Although investing in equities involves a degree of investment risk and there will be volatile periods along the way, in the long term, equities tend to outperform other assets like bonds, property, cash etc. By adopting a medium term approach, equity investors can mitigate the risks and short term volatility associated with stock market investment while benefiting from the long term capital growth potential that stock markets can provide.

Stock Market Indices provide a broad representative portfolio of investments in multiple companies or shares. Indexes are often used as benchmarks to gauge the movement and performance of market segments or geographic regions (the Eurozone in this case). Investors generally use indexes as a basis for diverse or passive investing. The EuroStoxx 50 Index is a Benchmark Index of large Eurozone shares.

SUMMARY RISK INDICATOR:

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because BNP Paribas is not able to pay the investor. The risk indicator assumes the product is held until maturity. The actual risk can vary significantly if the investor encashes prior to maturity.

We have classified this product as 4 out of 7:

Warning: This document is intended for Financial Broker firms only and is not suitable for potential Investors. This document should be read in conjunction with the product Brochure where a full list of warnings is provided.
