2. Investment Rationale in more detail

The investment rationale for investing in the Bond and in this Index can be summarised as follows:-

- Bonus Builder Feature: Potential 6.8% bonus each year if the Index is at or above 90% of its initial level at the end of each year. If the Index has risen or fallen by up to -10% at the end of each year, the bonus of 6.8% is payable. The potential bonuses are rolled up and paid at Maturity.
- Memory Feature: If any potential bonus is missed, it can be caught up if the conditional return level (at or above 90% of initial level) is exceeded at the end of any subsequent year.
- Investing in the Eurozone
- Investing in equities as a Long Term Investment and investing in the EuroStoxx 50 Index

Equities as a Long Term Investment

Although investing in equities (shares) involves a degree of investment risk and there will be volatile periods along the way, in the long term, equities tend to outperform other assets like bonds, property, cash etc. By adopting a medium term approach, equity investors can mitigate the risks and short term volatility associated with stock market investment while benefiting from the long term capital growth potential that stock markets can provide.

Stock Market Indices provide a broad representative portfolio of investments in multiple companies or shares. Indexes are often used as benchmarks to gauge the movement and performance of market segments or geographic regions. Investors generally use Indexes as a basis for diverse or passive investing. The EuroStoxx 50 Index is a benchmark Index of Eurozone shares.

The EuroStoxx 50 Index

The EuroStoxx 50 Index tracks the Eurozone's supersector leaders, resulting in a diversified and liquid portfolio of 50 Eurozone shares. The index's weighting is based on free-float market capitalisation, with a maximum weight of 10 percent per constituent.

The blue-chip benchmark underlies more than 25 billion euros in ETF assets, while futures and options on the index are the most actively traded equity index derivatives on Eurex. More than 160,000 structured products are linked to the EuroStoxx 50 Index.
